

MONTHLY UPDATE MAY 2024

About the Strategy

The Strategy aims to provide a balance between stability of returns and growth of your investment over the medium to long-term, through exposure to a mix of growth and income assets. The portfolio is actively managed and includes Australasian equities and international equities, infrastructure, fixed interest, and cash. The Strategy is biased to investments that target a low-carbon economy and can contribute to a more sustainable future.

STRATEGY OBJECTIVE

To deliver returns exceeding the CPI by 3.40% per annum before fees and tax, over a suggested investment timeframe of 6+ years.

As At 31/5/2024	1 Month (%)	3 Month (%)	6 Month (%)	1 Year (%)	3 Year (% p.a.)
Strategy return*	1.26	1.94	6.98	8.88	-
Strategy Objective**	-	1.47	2.80	7.42	-

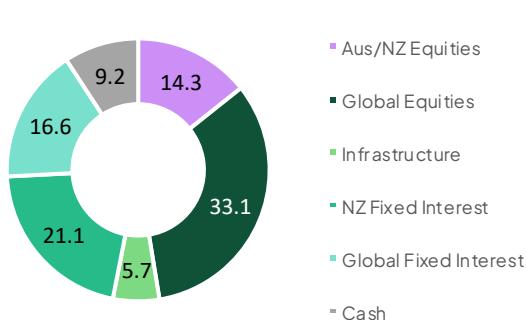

*Strategy returns are after fees, before taxes and are derived from the returns of the funds into which the strategy invests. Strategy returns are calculated based on the target allocation to underlying funds.

**Strategy objective is CPI+3.40%. Latest CPI is used, as at 31 March 2024.

Climate and environment metrics

We monitor the climate impact of the investments in the portfolio through carbon metrics, such as the temperature alignment. We also monitor how much of the portfolio is aligned with the UN's Sustainable Development Goals (SDGs), based on annual sales of the underlying companies. We prioritise the 4 SDG's that we regard as most relevant to the climate and environment. These metrics are applied on the equity and listed infrastructure components of the portfolio.
